

S815

The S815 is a mixed service tread tyre featuring a chip-resistant compound ideally suited for off-road and construction applications. A zigzag main groove pattern reduces stone retention, while maximizing traction under all applications. Sidewall protectors are engineered to provide an enhanced casing protection.

Features & Benefits:

- Large deep shoulder groove improve traction and help the tyre run cool.
- Interlocking lugs promote improve stability and uniform wear.
- Wide footprint and unique shoulder design improve stability.
- Specially formulated compound and deep tread depth improve tread life.
