# S860

12.00R24 18PR/20PR

## The New S860

- Longer wear life & service life
- Improved irregular wear resistance
- Improved cut/chipping resistance
- Improved retreadability

## Product Position

Special design for standard load, paved roads, short-moderate distance transport as well as all trucks.

## Technical Data

PATTERN	SIZE	LI/SR	PR	TD (mm)	RIM (inch)	OD (mm)	SW (mm)	SLR (inch)	SINGLE (KG)	DUAL (KG)	AP (KPA)
S860	12.00R24	156/153K	18PR	13.5	8.50	1226	315	22.52	4000	3650	775
S860	12.00R24	160/156K	20PR	13.5	8.50	1226	315	22.52	4500	4000	850

## Application

All position

Primary ▲

All position benefits

1. Easy inventory control
2. Reduced tyre stocking
3. Easy tyre rotation

**One-way distance:** ≤500km  
**Road Condition:** Highway  
**Speed Limit:** ≤80km/h

**Loading Rate:** Maximum 130% load limited  
**Axle Position:** All position

## Features & Benefits

Criss-cross grooves provide the tyre with a strong grip performance and excellent wet-skid resistance  
 Strong shoulder design for excellent resistance to abrasion

## Product features

Improved heat resistance, casing durability (retreadability)  
 Large unique casing  
 Increased air volume inside of casing

Less irregular wear & increased service life  
 New pattern design

Improved cut/chipping resistance  
 New base compound  
 Superior cut/chipping resistance
